ADDENDUM NUMBER 1

T-Hangar Building and Taxilane
Oneonta Robbins Field Airport
GMC Project No.: TBHM240015

I. General

The following clarifications, revisions, additions are hereby made a part of same, and shall be incorporated in the Project Manual, Drawings, and Work of the Contract the same as if originally included in the Bid and Construction Documents.

Bidders shall acknowledge receipt of this Addendum in writing, as provided on the Transmittal Cover Sheet and the Proposal Form.

When a revision and/or addition is called for to the Drawings or Project Manual, they shall be fully coordinated with and carried through all applicable Drawings and portions of the Project Manual, including in part, all related Civil, Landscaping, Architectural, Structural, Electrical, and other Documents.

II. Revision

The Heavy and Railroad (H/RR) licensure requirement is **waived** because 51% or more of the project falls under the Building Construction (BC) category. A contractor that has a Building Construction major license or a Building Construction specialty license can **bid as prime for this project**. The subcontractors hired to perform work need to be properly licensed for the scope of work they are contracted to perform/oversee. Ex: if the GC hires a subcontractor to perform concrete work for \$50,000 or greater, the subcontractor should be licensed to perform concrete work.

III. Conclusion

This is the end of Addendum Number 1
